

Quicken® Windows 2008-2010

Deactivate your account from Web Connect

1. Right click the account in the Quicken® Account List.
2. Select **Edit Account** from pop-up.

3. Click the **Online Services** tab → click the **Remove Connection** button.

4. Quicken® will prompt you to confirm deactivation. Click **Yes** → click **OK**.

Activate Web Connect

1. Login to www.mainsourcebank.com from an external browser to initiate a download of a Web Connect file into Quicken® (.QFX).
2. When presented with the screen below, choose the **Use an Existing Quicken® Account** radio button.

You are downloading transactions for the following account:

- Financial Institution : Target National Bank
- Account type : Credit Card
- Account number :

If you have set up an account in Quicken to track this account, choose "Use an existing Quicken account" and then select it from the list. Otherwise, choose "Create a new Quicken account" and Quicken will add one for you.

Use an existing Quicken account: Target Credit Card xxxx-xxxx-xxxx-4466
Please choose from the list.

Create a new Quicken account: Credit Card at Target National Bank
Please type an account name.

Continue Cancel Help

NOTE Now the account will be connected via Web Connect. Quicken® may prompt to activate "One Step Update" after a successful Web Connect download. Please select "No, Do Not Activate" and check the box to not be prompted again. See below.

Activate One Step Update

Connect to KeyPoint Credit Union directly through Quicken with One Step Update.

Yes, activate One Step Update. I want to connect to KeyPoint Credit Union directly through Quicken.

No, do not activate One Step Update. I want to go to my financial institution website every time I want to update my account data.

Is online banking safe?
How does Quicken protect my financial information?
How is this different from what I do today?
What if I don't have my username and password?
